Daniel Clas

Software Developer

Profile

I am 25 years old developer from Buenos Aires, Argentina, with full-time availability. I have worked for myself and as part of a team using Agile methodologies. My professional goal is to further my career in an innovative environment solving real problems with people that know more than I do.

Career Summary

Full-stack Developer   Santander | 2019 - 2020

- Part of the team that maintains and continually evolves the bank's company-oriented products, found on the public web portal and on every executive's workstation across the bank's branches.
- Developed two different APIs used internally by different teams.

Full-stack Developer   Accenture | 2019 - 2020

- Developed and maintained a portfolio of applications used internally by the company's more than 500k employees around the globe.
- Developed by my own initiative scripts to automate reports our team was in charge of delivering to other business areas of the company.

E-commerce Developer   Freelance | 2017 - 2018

-Worked for other people helping them set up their shopify stores
-Built and maintained my own stores, which demanded skills outside software development like sales and marketing
